Leapfrog All-day Courses

New! Expanded options for all-day courses!

All-day Leapfrog courses are weeklong experiences that introduce students to a topic of interest and foster critical and creative thinking through interactive, project-based activities. Most Leapfrog all-day courses are for students in grades 2 and 3. At our Evanston site, we are piloting a new all-day option for younger students, *The Science of Treasure Hunting*, for grades 1 and 2.

All-day students take a single course that meets approximately five-and-a-half hours a day, allowing for focused study. All-day courses meet from 9:15 a.m. to 3:45 p.m., Monday through Friday.
