Engineering

FLEXIBLE, PERSONALIZED COURSES FOR ENRICHMENT + ACCELERATION
AGE 3 - GRADE 12

Center for Talent Development's online courses are designed for students seeking to accelerate their learning or explore fascinating subjects in depth. Unlike so-called "click and next" online programs, CTD's courses are led by expert instructors who provide personalized guidance, feedback, and one-on-one attention. There is something for everyone:

- Courses families of young children can do together;
- Flexibly paced courses for individual students;
- Accelerated Summer Option (ASO) students set their own schedules and complete a 1- or 2-semester equivalent course in 9 weeks;
- Discussions, interactive sessions, and social activities (arts and crafts, dances, and more)!
